

Flip-Blade Insulated Screwdriver, 2-in1, Ph Bit #2, Sl Bit 1/4-Inch

Klein Tools' Flip-Blade Insulated Screwdriver is two drivers in one tool. The auto-eject mechanism works with just a twist, allowing you to flip the #2 Phillips- to the 1/4-Inch Slotted-end of the blade simply and easily. A bright orange coating of insulation protects from electrical shock, as well as being flame and impact resistant. Klein insulated tools exceed the ASTM F1505 standards for insulated tools, and are clearly marked with the official 1000-Volt rating symbol.

Specifications

Application:	Work Near Energized Sources	Special Features:	Insulated, Interchangeable Blade
Phillips Bits:	#2	Slotted Bits:	1/4" (0.6 cm)
Magnetic:	No	Shank Length:	3.5" (8.9 cm)
Material:	Induction Hardened Steel	Insulated:	Yes
Handle Type:	Cushion-grip	Handle Material:	Rubber, High-Dielectric Plastic
Handle Color:	Black/Orange	Handle Length:	4.7" (11.9 cm)
Overall Length:	8.2" (20.8 cm)	Overall Height:	1.25" (3.2 cm)
Overall Width:	1.25" (3.2 cm)	Number of Pieces:	2
Type:	Insulated Flip-Blade	Standard:	Meets or Exceeds ASTM F1505
Weight:	4.1 oz (116 g)
