

Tape Measure 25-Foot Magnetic Double-Hook

Klein Tools Tape Measures offer inventive first-rate features derived from jobsite professionals, to make jobs easier and more efficient. A magnetic double hook has a center top portion for hanging onto conduit right side up and upside down, while a 1-1/4 inch flared hook was designed specifically to pass-through 1-3/8 inch holes drilled for 1 inch conduit. This large magnet profile attaches to steel and along EMT conduit. A sealed tape brake panel is large enough to allow 2-3 fingers to operate at once for safe retraction, and keeps water and dirt out to prevent tape blade rust and degradation. The high impact rugged rubberized industrial design offers a better grip and stands up to any task the jobsite demands.

Specifications

Type:	Double Sided	Special Features:	Uncluttered, Easy to Read Bold Lines Every 1/8"
Tape Length:	25' (7.6 m)	Tape Material:	Steel
Tape Coating:	Nylon	Measurement Standard:	SAE
Graduations:	1/16"	Lockable Tape:	Yes
Rewind Type:	Automatic	Hook:	Double
Magnetic:	Yes	Belt Clip:	Yes
Case Material:	ABS Plastic	Case Color:	Orange
Overall Width:	4.25" (10.8 cm)	Overall Height:	2.25" (5.7 cm)
Overall Length:	6.5" (16.5 cm)	Weight:	1.1 lb (0.5 kg)
