

## Lighted Torpedo Billet Level, Rare Earth Magnet

The high precision and accuracy of Klein's Lighted Billet Aluminum Torpedo level saves time and rework. Powerful rare earth magnets with patented magnet track secure the level to any metal surface. Three large vials identify Level, 45 and 90 degrees. The bright LED high-definition of each are easy to read in any lighting condition. The level surface is precision ground and machined flat for increased accuracy. Durable aluminum ensures a long productive life while the high-visibility orange makes this level easy to find on conduit or the jobsite.

### Specifications

<b>Type:</b>	Magnetic Lighted Torpedo Billet	<b>Special Features:</b>	3 Minute Shut Off; Water and Impact Resistant; Batteries Required
<b>Material:</b>	Aluminum	<b>Accuracy:</b>	+/- 0.029°
<b>Number of Vials:</b>	3	<b>Type of Vials:</b>	0°, 90°, 45°
<b>Magnet Type:</b>	Rare Earth	<b>Overall Length:</b>	9" (22.9 cm)
<b>Overall Height:</b>	0.75" (1.9 cm)	<b>Overall Width:</b>	1.8" (4.6 cm)
<b>Weight:</b>	11.2 oz (318 g)
